📞 0474/84.61.58

📍 1340, Ottignies - Belgium

Former store manager transitioning into Full Stack Development, I bring strong **customer service, adaptability, and organizational skills**. After 15 months of intensive training at Interface3 and a hands-on internship, I'm now seeking a **Junior Web Developer** role in a collaborative team where I can contribute, grow, and keep learning in an agile, user-focused environment.

Web projects

- **"Green Hiro"**: Project born in a 3 days hackathon with imposed subject "Green It". We build a narrative game using : Symfony 7, Maria DB, Api Platform and React 18
- **"Disneydle"** : Web quizz inspired by 'Pokedle' about Disney quotes and characters, in collaboration with a frontend student. We used: React 18 and WebApi.Net
- **"Portfolio"**: School project to build a Portfolio Website using only Html, Css and Javascript
